

PRODUCT INFORMATION

BORPower® Marine Ultra

MARINE ULTRA

About the product

BORPower® Marine Ultra is a nano coating specially designed to be used in the marine sector

Your advantages

- Decreases exhaust emissions up to 15%
- Higher fuel economy
- Low friction and heating
- Increased performance
- Longer service life of mechanical components
- Lower maintenance and labor costs
- Minimizes friction
- Extends the life of the machine equipment
- Provides 2% to 15% energy saving (electricity, fuel)
- Provides up to 10% performance improvement
- Decreases heat by 2-10° C
- Prevents or minimizes thin oil leaks

1.

Application

BORPower® Marine Ultra was designed specifically for the maritime sector. During use, you will receive detailed information by our team.
